Management Course

SETsolutions
Staff • Employment • Training

Would you like to learn what it takes to become a successful Manager? Or further enhance your existing knowledge? Studying with SETsolutions can get you there! To be the best Manager or leader, you need to have the right training. We have designed our Frontline Management course to provide you with the skills that you need to enhance your employment and promotion prospects, through the development of skills and knowledge across a broad range of management focused areas. By participating in this course you will learn many key aspects of leadership in the workplace, such as establishing effective workplace relationships, implementing operational plans and developing teams. You could also be eligible to complete this course with Government funding; contact SETsolutions today to find out!
